

CHETANKUMAR VAGHELA

Senior Flutter Developer | Flutter, Native Android (Kotlin), iOS, Firebase

Surat, India | +91 8154073974 | chetanvaghela457@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Mobile Developer with 6+ years building native Android and Flutter apps across proptech, brokerage, streaming, logistics, and enterprise domains. Proficient in Kotlin, Dart, Flutter, GraphQL, Node.js, and Firebase, with 10+ apps shipped to Google Play, the App Store, and Amazon Appstore. Skilled at full-stack architecture, payment/subscription integrations, and reducing crash rates through performance optimization. Immediate joiner.

CORE COMPETENCIES

Kotlin | Java | Dart | Flutter | Flutter Web | MVVM & Clean Architecture | GraphQL | REST APIs | Node.js | Firebase | PostgreSQL | FastAPI | RevenueCat | Stripe | Razorpay | Google Play Billing | Apple In-App Purchase | AdMob | GitHub Actions | CircleCI | Fastlane | Docker | WebSocket | Background Location Tracking | Live Maps | IPTV Streaming | VAST Ads | GetX, BLoC, Provider, Riverpod | CI/CD Automation | Cross-Platform Development | Team Leadership & Mentoring

WORK EXPERIENCE

Freelancer Mobile Developer January 2026 – Present

Self-Employed — Remote

- Delivering end-to-end Flutter mobile products for global clients across proptech, brokerage, and consumer apps, including TikTraq, RightALLY, and Karebo.
- Partnering directly with founders to scope, build, and ship production-ready apps to Google Play and the App Store.
- Building map-based, real-time location, and REST API-integrated features with scalable Flutter architecture for fast-moving startups.
- Managing multiple concurrent client engagements end-to-end, from architecture decisions through app-store release and post-launch support.

Senior Flutter Developer June 2023 – December 2025

360 Degree Technosoft — Ahmedabad, India

- Boosted recurring revenue 40% by integrating RevenueCat, Stripe, and Razorpay across 10+ published apps.
- Reduced crash rate 85% and app size 30% via Crashlytics monitoring, R8 optimization, and multi-module architecture.
- Delivered 10+ apps to Google Play, App Store, and Amazon Appstore across Android TV, Fire TV, and mobile.
- Built full-stack GraphQL backends (Node.js, TypeScript, PostgreSQL) with real-time WebSocket updates.
- Led the Strimm Smart TV platform (1,000+ users) and mentored 5 junior developers on CI/CD (GitHub Actions, Fastlane).

Senior Android and Flutter Developer (Freelance) June 2020 – May 2023

Open Source Infotech

- Achieved 10M+ total downloads across delivered apps through analytics-driven optimization.
- Delivered 10+ apps with in-app subscriptions and VAST audio ad integrations, diversifying monetization.
- Strengthened release quality by managing end-to-end app store submissions and post-launch performance monitoring across client releases.
- Partnered with multiple client teams as a freelance developer, building Android and Flutter apps across e-commerce, media, and utility domains.

Android Engineer June 2019 – May 2020

Bigscal Technologies — Surat, India

- Reduced app size 30% by optimizing assets while building Healthray App modules in Kotlin with MVVM architecture.

- Built consult-a-doctor, appointment, billing, and health measurement modules using Kotlin, RxJava, Retrofit, Firebase.

KEY PROJECTS

TikTraq – Realtor Field App | Flutter, Google Maps, Live Location, REST APIs

- Built a Flutter app end-to-end for realtor field workflows, combining live map experiences and location updates for agents on the move.
- Delivered property-visit coordination and route-based field operations through map-driven, mobile-first UX.

Site: tiktracq.com

RightAlly – Brokerage Operations Platform | Flutter, REST APIs

- Built the Flutter mobile experience for an AI-first brokerage platform, covering revenue-share workflows, referrals, and agent payout visibility.
- Delivered mobile dashboards giving agents and leadership real-time insight into earnings and post-deal operations.

Site: rightally.io

Karebo | Flutter, Android, REST APIs

- Shipped a production-ready Flutter app to Google Play with scalable architecture and backend integrations.
- Delivered polished, release-ready mobile UX and stable Android app-store delivery.

Play Store: play.google.com/store/apps/details?id=com.karebo.android

BuildIndia ERP – Field Sales & Operations | Flutter, Riverpod, Google Maps, Firebase

- Led feature delivery for an enterprise Flutter ERP serving 500+ field users, including background location tracking and analytics dashboards.
- Built visit planning, selfie verification, task hierarchy, and team-coordination workflows across the sales organization.

App Store: apps.apple.com/in/app/buildindia/id6738859658

Urban India – Groceries Online | Flutter, Stripe, Firebase

- Led development of a Canada-based grocery delivery ecosystem (Customer + Delivery apps) with Stripe payments and real-time order tracking.
- Designed a loyalty and cashback program integrated into checkout, reaching 5K+ downloads at a 4.8/5 rating.

Play Store: play.google.com/store/apps/details?id=com.urbanindia

Jazzbooks Streaming | Flutter, AVFoundation

- Built an iOS streaming and music-education app used by 2,000+ musicians, with real-time tempo/key adjustment.
- Implemented dual-track playback (bass+drums or piano+drums) using AVFoundation and a custom audio engine.

App Store: apps.apple.com/in/app/jazzbooks-streaming/id1667200133

ABP Live TV | Android, Streaming, Live TV

- Contributed to ABP Live's streaming app, focusing on live TV delivery for a large-scale news audience.
- Worked on playback reliability and content delivery stability under high-traffic mobile news consumption.

Play Store: play.google.com/store/apps/details?id=com.abpnewslive

TECHNICAL SKILLS

Kotlin | Java | Dart | JavaScript | Node.js | Flutter (Web & Mobile) | MVVM, Clean Architecture | GetX | BLoC | Provider | Riverpod | Leanback | ExoPlayer | Android Auto | Fire TV | GraphQL (Apollo) | REST | Express | PostgreSQL | FastAPI | Firebase (Auth, Firestore, FCM, Hosting) | RevenueCat | Stripe | Razorpay | Google Play Billing | Apple In-App Purchase | AdMob | GitHub Actions | CircleCI | Fastlane | Docker | WorkManager | Background Fetch | Live Maps | WebSocket | AI Code Generation | IPTV | VAST Ads

EDUCATION

B.Tech Computer Science & Engineering — August 2015 – April 2019

Parul University, Vadodara, Gujarat, India
